Excise Taxes reporting in a trading organization is one of the most crucial and time consuming tasks and a nightmare for the accountants and management. Small and Medium businesses spend days and months in manual data management and collection for reporting to Excise Tax authority and still end up having problems and issues at the final reconciliation.

Statutory and Excise Module for Sage Accpac ERP provides small and medium trading enterprises a seamless way to input information, furnish returns and maintain mandatory registers as required by Indian Tax authorities while making sure that the workflow, inventory valuation, financial reporting and operational modules data integrity is maintained in Sage Accpac ERP.
